

Tournament Management & Live Score

The cooperation between Loglig and Scorli provides comprehensive tools for management tournaments:

- 🔄 Ability to create management system for tournament in Loglig.
- 🔄 Generate full game schedule according to different constraints and settings.
- 🔄 Assign referees and fields to the games and control publishing of the games to the public.
- 🔄 Ability to assign different roles to a tournament such as competition manager, referee, spectator and more
- 🔄 All the data for games schedules is available in Scorli app.
- 🔄 Referee can assign into the APP and receives his next game to edit statistic data of the game in real time.
- 🔄 The audience can see in Loglig system the updated score results in real-time and the games chart as well.
